STREET DOCTORS EVENT REPORT

The Project

Hope in Tottenham, in collaboration with StreetDoctors, Sister System and the Independent Office for Police Conduct with the Haringey Safer Neighbourhood Board delivered an emergency First-Aid workshop to **580** students.

**A student from
Waltham Forest
College said...**

“ If I were to experience someone losing blood, I would know what action to take on how to deal with the situation. ”

“ They really helped me understand how to help aid someone that has been stabbed and the visual performance makes me feel confident that if I were to be in such a situation, I would be able to aid. ”
